

Pok Oi Hospital Chan Kwok Wai Primary School
Notice no. 53: Notice about class suspension on 12th November, 2019

To whom it may concern, traffic is severely blocked and most of the MTR stations in Tseung Kwan O line are closed today due to the serious conflicts caused by social incidents. Our school and the surrounding areas are being affected by the tear gas. Considering the safety of students and teachers, our school has got the consent from both the IMC and the Education Bureau that class will be suspended for one day (12th November 2019, Tuesday). During the class suspension, school will keep open and parents can bring your children back if needed. Our school will arrange teaching staff to take care of students coming back to school.

Our school cares about the health and safety of every single child and we encourage parents to spend time in accompanying your children. During the class suspension, students are reminded to stay at home to do revision. They are advised not to go onto the street nor to places with crowds or demonstration.

In addition, parents please pay attention to the eClass and school website to get in touch with the most updated arrangement about any emergency.

School Principal
Ms Wai Suk Ching
